

# Tweseldown Infant School Virtual Learning Environment

An information leaflet for  
pupils, parents and carers.

- ★ What is a VLE?
- ★ Benefits for pupils, parents and carers
- ★ How to log on
- ★ Internet Safety

## **What is a Virtual Learning Environment (VLE)?**

Our VLE is a personalised area on the internet for Tweseldown Infant School pupils, teachers, parents and carers. It is an online space where pupils can access learning resources —anytime, anywhere!

These learning resources may include quizzes, problems to solve, forum discussions and links to educational websites.

Our VLE is designed to help pupils learn at home both independently and in partnership with their parents.

### **Practical benefits for pupils:**

Our Virtual Learning Environment will enable pupils to:

access learning materials created by their teachers and others outside lesson time and from any location

store work and notes online for use in homework and revision

work at their own pace and with a wider choice of learning styles

improve their ICT skills and online management

participate in live discussions and forums with other students and teachers

### **Practical benefits for parents & carers:**

Our Virtual Learning Environment will enable parents and carers to:

support children with learning which takes place outside school

access their child's personal home page to keep track of their work and the curriculum

engage with wider school issues through online communication tools

become active partners with the school

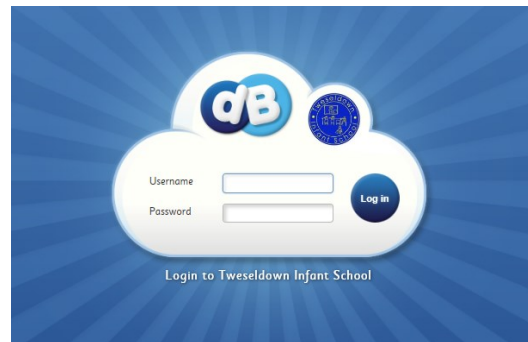

If you do not have a device with internet access, please let your child's teacher know. Some activities added to the VLE can be made available as a paper copy. We also recommend the use of other services with internet access such as **Fleet** library.

## Logging on to the VLE

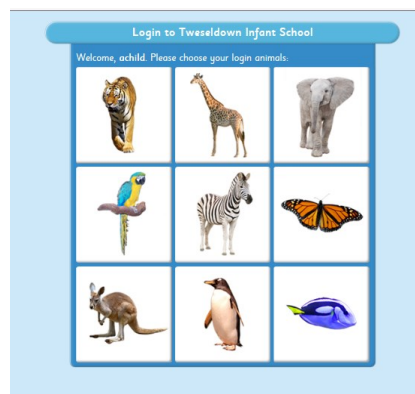

The easiest way to find our VLE is through the school's website at:

<https://secure.dbprimary.com/service/util/login?path=/hants/primary/tweseldown&path=/hants/primary/tweseldown>

You will now be viewing **Tweseldown Infant School** VLE:

Enter your username into the cloud and click log in, you will then be asked for your child's password:

You will now be logged on to **our** VLE.

Hope you enjoy using it!

## E-Safety

1. Please reinforce the Children's Guidelines with your child at home (see below).
2. DB Primary does not filter the internet, so you need to have your own internet firewall and parental controls set up.
3. If your child finds any inappropriate material on the learning platform please inform the school immediately or use the Whistle Monitor feature (details below).
4. Anything your child puts onto DB Primary can be seen by members of staff.

## Children's Guidelines

Sensible behaviour when using the emails / blogs or forums.

Make sure that any pictures you upload (profile picture, or pictures in posts) are suitable for a school audience.

Keep your personal details, password safe.

Write in full sentences.

Sensibly express your opinions in forums.

Email your friends outside school time.

Share links to sites by posting them in your blog / forums.

## Whistle Monitor: reporting inappropriate content

If a child or parent finds any content they believe is inappropriate, they can report this to a nominated "Whistle Monitor" at the school by clicking on the whistle icon.

This will email the details to the nominated member of staff (Miss Cordery). The email will contain a link and brief description of the offending page.

Further details on using the 'whistle monitor' facility can be found on our online guide. [www.wiki.dbprimary.com](http://www.wiki.dbprimary.com)

## Internet Safety websites:

It is important for our pupils to use the Internet safely at school and at home. Please spend some time looking at these Internet Safety websites:
